

I) HOW JRTPHOTO IS ORGANIZED

The first selection of an event is found on-line in the “Ongoing Regatta” section. Here you will find all the images I shot, with the out-of-focus, camera-shake, or anything that I deem compromises the image, already filtered out (also known as trash!). The search function is limited to the boat's name, or to the sail number for one-designs under 35'. Usually on-line a few days after the end of the regatta.

In the “Marine Archive” section you'll find my more interesting images from all events since 1989. An average of only 20% from the “Ongoing Regatta” section will make it here. At this point each image's database search info is completed – class, designer, wind and light, and so on.

To make it to the “Best Images” section of the “Marine Archive”, once again the images are filtered; we could also call it “My Favorites”!

The “Latest Images” are those I've just added to the Marine Archive, in addition to any older Marine Archive images that have been updated.

The home page search function needs at least three letters to start off.

II) TERMS OF USE

What can I use the images for?

You may use my images for any non-commercial purpose that does not involve freely distributing the files. I also give you specific permission to use the images:

- to make prints for personal use
- to display on your personal computer
- in advertising the boat for charter or sale
- to publish on your personal website or blog

You may also share them with other crew members without violating copyright. You might like to make it a joint decision to buy the digital images and split the cost.

What can I not use the images for?

Without first obtaining permission from the author you may not:

- re-sell the images
- use the image for advertising (except as noted above)
- publish the image (except as noted above)
- submit the images to newspapers, periodicals, publishers or stock photo agencies

If you are in doubt, or would like a quote for commercial and/or editorial use, please send me an [email](mailto:info@jrtphoto.com) (link mail to info@jrtphoto.com) describing what you would need.

III) WHAT YOU GET AND HOW YOU GET IT

What happens when you purchase an image:

Image files and Prints

Here you will find a list of the various formats available, their technical description, and how they will be delivered to you, while the following are common to all my images:

- All files and prints are optimized before delivery. This means that I remove any defects (usually sensor dust), straighten the horizon, and color-calibrate each image individually. I do not do any heavy zooming, create any strange effects or otherwise; so what you see is not as nice as

what you will get! If you do need any photo retouching beyond the above, please send me an [email](mailto:info@jrtphoto.com) (link mail to info@jrtphoto.com) with your ideas.

- If you are interested in any special formats, larger, smaller, or just a specific size that's not listed above, please send me an [email](mailto:info@jrtphoto.com) (link mail to info@jrtphoto.com) and I will send you a quote.
- ALL FILES AND PRINTS ARE 100% MONEY-BACK GUARANTEED! After twenty years of selling images I know that despite all my precautions, sometimes things can go wrong (you, me, the post office!), so please [contact](mailto:info@jrtphoto.com) (link mail to info@jrtphoto.com) me for any problems you may be having. Refunds are sent through the PayPal system. (feedback button)

IIIA) DIGITAL JPEG FILE, 4.4MB OPEN

The files are sized 4.4mb (apx. 1500 x 1000 pixels) when open, but since jpeg is a compressed format when closed for transmission their size will be about 300k each (less than half a megabyte). An image's compressed size will vary from about 200k to about 500k. I use high quality compression; the exact transmission size is determined by each image's colors.

Orders less than 5mb total size will be delivered to you by email to the address supplied in your order form. Over 5mb, you will receive an email with a link to my server where you can download your order as a zip file. Delivery is guaranteed within 48 hours (Monday through Friday), though most are sent within a few hours, and 90% by the following morning. Since I individually optimize each image, some time is needed to prepare each order.

IIIB) DIGITAL TIFF FILE, 17MB

Each file is slightly more than 17mb (apx. 3000 x 2000 pixels). Tiff is the industry standard format for printing, guaranteeing the highest possible quality image. I presently use the Adobe 1998 color space; this has a very high gamma of colors and is the preferred color space for printing.

If not specified, delivery will be via internet: you will receive an email with a link to my server where you can download your order as a zip file. Here I use a loss-less* compression for the files, which brings them down to apx. 12-14mb. when closed. Delivery is within 48 hours (Monday through Friday), though most are sent within a few hours, and 90% by the following morning. Since I individually optimize the images, some time is needed to prepare each order.

If you prefer, I will mail you a hard copy on CD/DVD to your street address. Shipment is by priority (not registered) mail. Please allow 7 to 10 ten days for delivery in Europe, 10 to 14 days for the rest of the world.

*(LZW, all color information is included, not to be confused with JPEG which actually discards some color information)

IIIC) DIGITAL PRINT 13X20 CM. (A5) (APX. 5" X 8")

IIID) DIGITAL PRINT 18X24 CM. (APX. 8" X 10")

These are beautiful Kodak dye-sublimation prints with a final UV protection pass. Shipment is by registered mail: please allow 7 to 10 ten days for delivery in Europe, 10 to 14 days for the rest of the world.

IIIE) DIGITAL PRINT 20X30 CM. (A4) (APX. 8" X 12")

IIIF) DIGITAL PRINT 30X45 CM. (A3) (APX. 12" X 18")

These are fantastic Lambda chemical prints (no inkjet or plotters) done by my most trusted print lab here in Florence. Shipment is by registered mail: please allow three to four weeks for delivery. If you are interested in any special formats, either larger or just a specific size that's not listed above, please let me know and I'll send you a quote!
